323 ballstop ball valves with integral check valve

Application

The Altecnic ballstop valve is a ball valve with an integral check valve housed within the ball to provide isolation and prevent backflow.

The ballstop valves is also suitable for use in domestic and small commercial heating systems.

The inclusion of the integral check valve, eliminates the need to fit a separate check valve downstream of the pump whilst the ball valve performs as an isolating valve should the pump need to be removed or the boiler emptied.

Construction Details

Component	Material	Grade
Body	Brass	BS EN 12165 CW617N
End connection	Brass	BS EN 12165 CW617N
Ball seat	PTFE	
Ball - 1/2" to 1"	Brass - chrome plated	BS EN 12164 CW617N
- 1 1/4" to 2"	Brass - chrome plated	BS EN 12165 CW617N
Gland packing	PTFE	
Check valve	Polymer	
- 1 1/2" & 2"	Brass -chrome plated	BS EN 12164 CW614N
Check valve spring	Stainless steel	
Check valve seal	Nitrile
